

BOB LENZ

School Assembly Speaker

International Speaker, Author

Heart.
Humor.
Hope.

There are a lot of school assembly speakers who have great things to say, but aren't engaging enough to hold the attention of a skeptical student audience. Then there are those who can easily captivate a crowd, but leave them longing to hear something of substance. Rarely do you get both.

Bob Lenz is that speaker. It's his energetic, humorous, yet down-to-earth style and genuine concern that capture young people's attention, while his stories and principles awaken their understanding and inspire them to embrace their worth and impact their world with newfound purpose and resolve.

This rare combination of passion, delivery and substance has resulted in Bob Lenz being considered one of America's top school assembly speakers, with his programs consistently ranking among the best in the nation by school administrators, teachers, parents, and most importantly, students.

Would you agree your students don't need another speaker to tell them what they should or shouldn't do? Instead, allow Bob Lenz to take them on a journey that offers ownership of the lessons being shared and the discovery and realization that they need and want what is being offered.

NOTABLE PARTNERSHIPS & ENDEAVORS

- Worked in cooperation with SADD, MADD, BETA Clubs, National Association of Secondary Principals, National Student Council, Boys & Girls Club, Kiwanis, and other youth-focused organizations
- Actively involved in anti-bullying initiatives, as well as prevention of self-harm, suicide and substance use
- Author of the anti-bullying book, *Dignity Revolution – Standing up for the Value of Every Person*
- Founder & President of Life Promotions, a non-profit youth organization with a mission to instill hope in youth.

Since he first started in 1982, Bob has spoken to more than three million people in all 50 states and traveled the world. Together with his wife, Carol, they have five children and several grandchildren.

“After 35 years in education I had become a bit jaded about assembly programs. It wasn't three minutes into the presentation that I found myself laughing out loud and taking a message with me. - High School Principal

I feel like the someone I needed to give me hope finally spoke. - Student

Thank you. That's all I can say. I didn't feel like I was worth anything just because I was different from the norm... but to hear you speak, and hearing your stories gave me another reason to hold onto my life and not end it. - Student

You could have heard a pin drop on the carpet in the auditorium throughout the whole presentation, well of course not when they were busting out laughing! - Parent

Bob's topics were pertinent and really hit the mark. His sense of humor really opened our students up to his message. What a great connection and inspiration to the students! - Teacher

“The most devastating thing I have ever seen is that so many youth at some point consider death more appealing than life. I don't want to see young people cheated out of life.”
